

Steps for Asbestos Disposal

City of Port Angeles
3501 W 18th Street
Port Angeles, WA 98362

Step 1: Request appointment

Call Leyton Evans at (360) 417-4873 to schedule an appointment. Appointments are Saturday's only, between 11 a.m. and 4 p.m. **Do not try and drop off asbestos materials at the facility until your appointment is confirmed.**

Step 2: Prepare materials

Materials must be wet upon delivery. Wet materials with water or a suitable non-hazardous wetting agent before bagging.

All Other Asbestos-Containing Materials:

- Double wrap in sturdy, leak-proof plastic bags (6 mil minimum thickness).
- Seal **each** bag at the top, with duct tape and place into another leak-proof plastic bag (6 mil minimum thickness) and seal the outer bag in the same manner as the inner bag. Bags must not weigh over 50 pounds each. *NOTE: If larger pieces will not fit in a bag, double wrap the wet materials in heavy plastic sheeting (6 mil minimum thickness), and seal the package with duct tape.*
- Customer must lift each package into a container without assistance from staff.

Step 3: Attach label

Label each bag of asbestos-containing material with one of the attached asbestos labels unless you have a pre-labeled bag.

Step 4: Deliver

Once you have a confirmed appointment. Bring the asbestos-containing material to City of Port Angeles Transfer Station, located at 3501 W. 18th Street, Port Angeles, WA. The packaging and labeling will be reviewed and once approved, the asbestos materials can then be offload into a properly designated box. Be prepared to complete additional paperwork onsite and to pay current asbestos disposal fees.

Label Required

ATTACH LABEL TO PROPERLY WETTED, WRAPPED, AND SEALED
ASBESTOS-CONTAINING MATERIAL

DANGER

Contains Asbestos Fibers • May Cause Cancer • Causes Damage to Lungs
Do Not Breathe Dust • Avoid Creating Dust

Name of waste generator _____
