WEATHERWISE SERVICE

Window Rebate Application

Rebate Eligibility Requirements

Rebates are available for qualifying replacement windows installed after October 1, 2025, completed and passed inspection by August 31, 2028. Only replacement windows that have been approved in writing by a Weatherwise Service representative qualify for a rebate.

Service Requirements: Your home must currently be served electricity by the City of Port Angeles and have any type of electrical heating equipment capable of heating your building. The existing windows or glass doors must be single pane, single pane with a storm window, or double pane with metal frame. Existing entry doors must be uninsulated. To qualify, the building must have a certificate of occupancy issued prior to January 2016. A building with any type of electric heating equipment with a fireplace, fireplace insert or wood stove qualifies. A building with a non-electric heating system (oil, propane, etc.) and any type of electrical heating equipment qualifies; however, removal of the non-electric heating systems is required. Basements heated by an electric heating system and by no other non-electric space heating equipment qualify.

City Authorized Contractors: City Authorized Contractors have entered in to an agreement with the City. City Authorized Contractors have a State contractor's license and bond. The City does not recommend one contractor over another. The City does not endorse any materials or products.

Before selecting a contractor, customers may request and check references from the contractor. Customers may check with the Better Business Bureau at (206) 431-2222 or http://alaskaoregonwesternwashington.bbb.org/

Window Notice: Only windows with a certified National Fenestration Rating Council (NFRC) U-Value of 0.30 or lower qualify for a rebate from the City. Windows must be properly installed according to the manufacturer's installation instructions and in conformance with the City's Weatherization Material and Installation Specifications. All window installations must be completely installed and provide a complete weather barrier. It is the Owner's responsibility to contact and be aware of the City Building Safety and Inspection Division and International Building code requirements for safety glass, egress, etc.

Door Notice: Pre Hung Insulated Exterior Doors and Glass Doors with a certified National Fenestration Rating Council (NFRC) U-Value of 0.35 or lower qualify. Doors must be properly installed according to the manufacturer's instructions and in conformance with the City's Weatherization Material and Installation Specifications. All door installations be completely installed and provide a complete weather barrier. It is the Owner's responsibility to contact and be aware of the City Building Safety and Inspection Division and International Building Code requirements for safety glass, egress, etc.

Weatherization Material and Installation Specifications: A complete copy of the City's Weatherization Material and Installation Specifications is available on the *CONSERVATION* pages of the City's web site www.cityofpa.us. You can also request a copy on the conservation phone line at (360) 417-4713.

Inspection Notification: All window and door installation must satisfactorily pass inspection by a Weatherwise Service representative prior to rebate payment. The manufacturer-provided NFRC sticker must remain on each window until after inspection. All installation may include an additional inspection by a Bonneville Power Administration representative.

The Owner(s) have read, understood and agreed to comply with the Rebate Application and the City's Material and Installation Specifications. By signing below, the Owner(s) certifies the information provided in the application is complete, true and correct.
